Roll-2-Roll Technologies LLC signs sales representative MetSource

Press Release

Roll-2-Roll Technologies, a developer and manufacturer of intelligent web position sensors and web guides for the roll-to-roll and converting industry, has entered into a partnership with manufacturing sales representative firm MetSource, based in St Louis, Missouri.

MetSource, led by John Meyer, represents synergistic lines in the converting industry offering customer specific options bringing value to both customers and principals they represent.

MetSource will be an exclusive sales representative of Roll-2-Roll Technologies' line of web guides and web positioning sensor products in the region of Missouri, Kansas, Arkansas, Oklahoma and Southern Illinois.
