Roll-2-Roll Technologies LLC Announces Launch of New Wide Range Sensor for Web Guiding, Width Measurement and Monitoring

Press Release

Roll-2-Roll Technologies LLC is launching its latest development, the ?WPS 900 sensor?. This sensor provides a sensing range of 35.4 centimeters, making it the widest sensing range in the industry.

The WPS 900 has the same versatility as the rest of the Roll-2-Roll® Sensor product line and could allow converters to use it in multiple applications on their manufacturing line.

WPS 900 Widest Sensing Range in the Industry for Converting Op
