Roll-2-Roll Introduces ODC 960 Sensor

Press Release

Roll-2-Roll Technologies introduces its latest product, the ODC 960 sensor. Boasting a sensing range of 37.8 inches and a resolution of 0.005" or 0.127 mm, the ODC 960 sets a new industry standard for wide-range sensors, providing unparalleled precision for converters seeking the utmost accuracy in their converting applications.
